# **Owner Resources**

## EnergyLink

EnergyLink is a free service Bayswater provides to owners, allowing owners to view detailed revenue statements, whether an owner receives payments via check or direct deposit. It is the owner's responsibility to register for this service. If help is needed with registration or the service, please contact EnergyLink directly:

https://www.energylink.com/ Phone: 1-888-573-3364

## **Direct Deposit (ACH)**

Please click here for direct deposit form and information.

We do not offer direct deposit to Working Interest owners. The division order will have "WI" as the interest type if the interest is a Working Interest.

### **Payment Distribution**

Revenue is processed at the end of every month. Checks are sent out around the 1<sup>st</sup> or the next business day if the 1<sup>st</sup> falls on a weekend. There are no special check runs. Please allow 14 business days to receive a check in the mail before making an inquiry.

### **Division Orders for New Wells**

Division orders are an indicator that revenue is due from a producing well(s). It is not an attempt by Bayswater to purchase minerals. A division order is an owner's opportunity to confirm interest type, net revenue interest in the well, and provide Bayswater with necessary information to begin sending payments.

Texas owners: Division orders for new wells are sent within 120 days from the first day of the month following first sales.

Colorado owners: Division orders for new wells are sent within 6 months of first sales.

### **Title Requirements**

Title requirements are identified and issued by the examining title attorney based on incomplete documentation and/or state statute requirements.

If an owner receives a title requirement with the division order, it is the responsibility of the owner to resolve the title requirement. Owner revenue remains in suspense until the title requirement has been resolved.

### **Ownership Transfers**

Transfers take a minimum of 90 days to be complete and will be processed on a first in/first out basis.

When ownership transfers/conveyance documents are submitted, Bayswater places all parties associated with the transfer into transfer pending status, therefore, no revenue will be distributed.

After a transfer is completed, a Transfer Division Order (TDO) will be mailed out. There will be notes on the TDO indicating which document is associated with the transfer. It is the owner's responsibility to confirm the correct net revenue interest within the well(s).
